

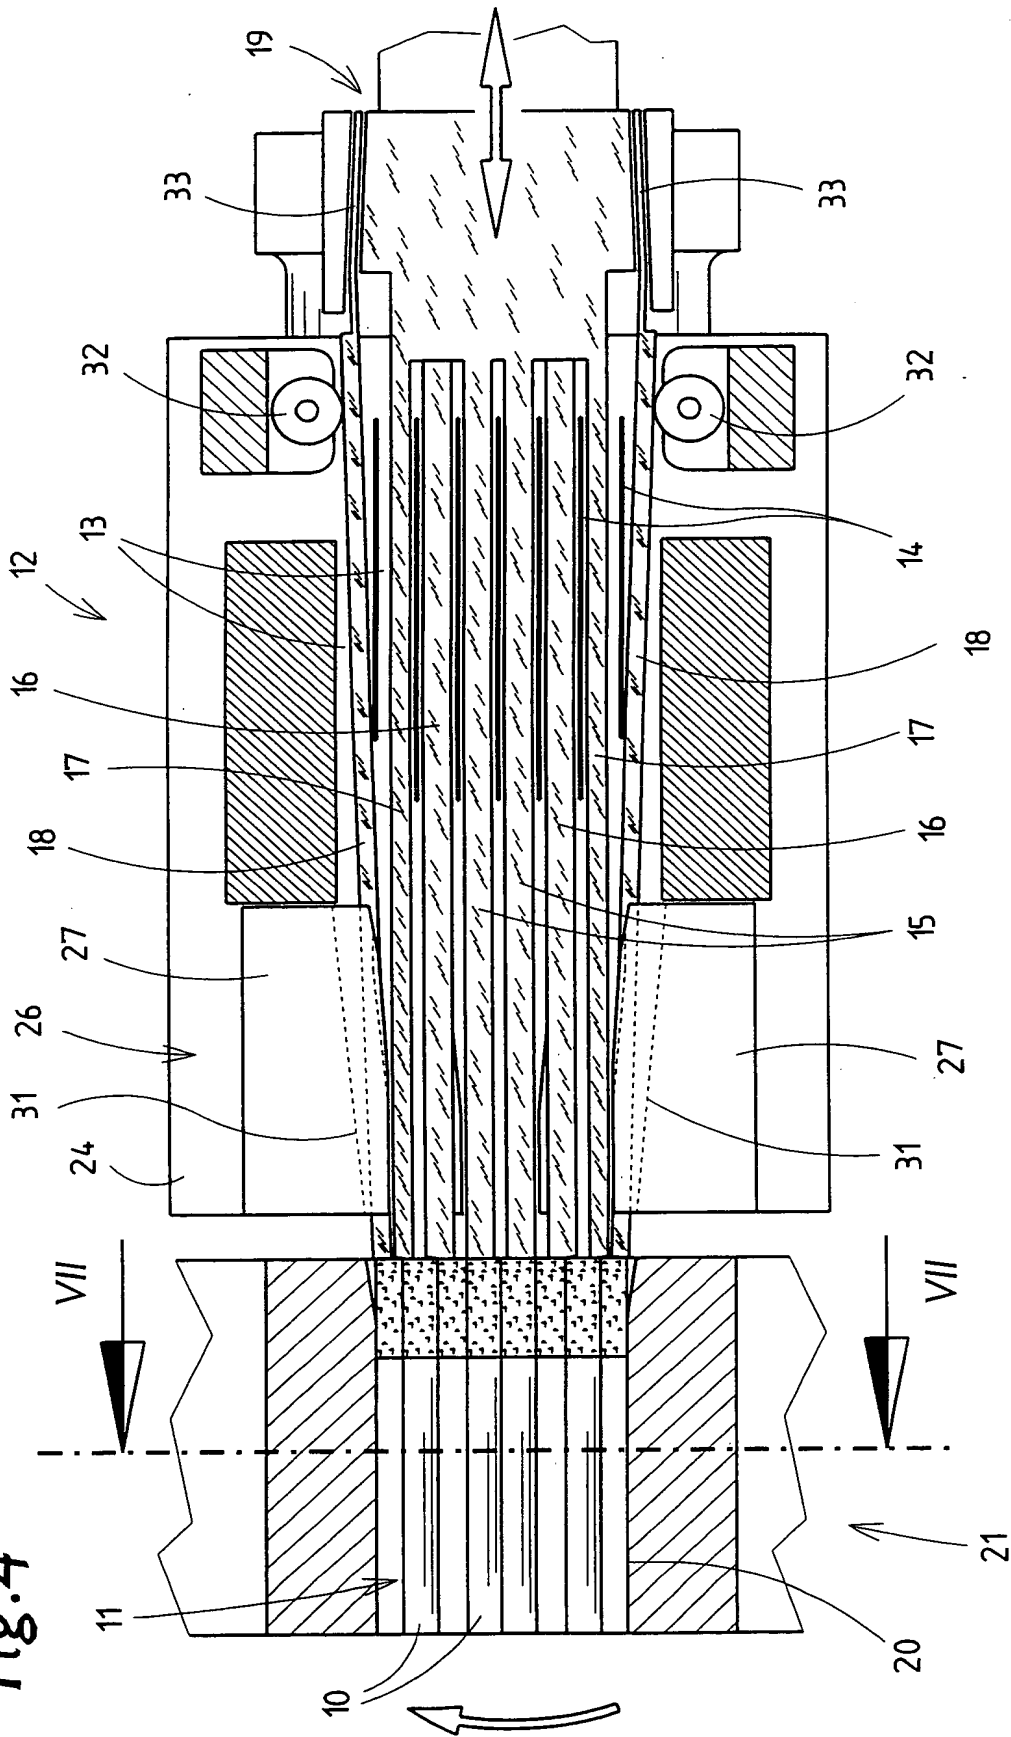

Fig. 4

This cross-sectional view shows a multi-layered assembly. A central core (23) contains a grid of circular elements (22) held in place by a matrix (25). This core is sandwiched between two side layers (27). The entire assembly is mounted on a base (24). A top layer (28) covers the side layers. A bottom layer (26) is also present. Various interfaces and components are labeled with numbers 20 through 30.
